SUMMARY

Highly skilled and motivated Full Stack Developer with 2 years of professional experience in developing and delivering web applications. Possessing expertise in both front-end and back-end technologies. I love to work with Javascript ecosystem and it's frameworks.

Problem-solving oriented person who has a high willingness to learn about modern technologies. I able to work independently and excel in collaborating with cross-functional teams.

EXPERIENCE

PT IIJ GLOBAL SOLUTIONS INDONESIA – Jakarta, Indonesia

Full Stack Developer (December 2021 – present)

- Analyze and create the plan of system requirement
- Write API spec / documentation
